

CASTABLE ANCHOR

V1.6(60)-070-310

TYPE Ø ANGLE LENGTH L ALLOY

Anchors are manufactured with a DIN EN 10278 (DIN 671) cold drawn wire, by robots using hydraulic tools. That allows minimizing bend marking and avoids micro cracks

Our recommendations :

- CH anchor (PAGE A1-03) allows easier, stronger, safer welding
- Always cap your anchors, it will give a small space into which the thermal expansion steel alloy (higher than castable) can move without creating stress and possibly damaging in the castable.
